Girls Collaborative Project

Advancing the agenda in gender equity for Science, Technology, Engineering, and Mathematics

Connecting Girls to STEM: Resources and Learning Strategies

A Forum Sponsored by the CT Girls Collaborative Project

April 5, 2010, 11:00 a.m.—3:00 p.m. (3:00—5:00 explore the CT Science Center)

Connecticut Science Center

250 Columbus Boulevard
Hartford, CT 06103

Both formal and informal educators will value this free and unique opportunity to network with peers who support and create programs for girls in the STEM (science, technology, engineering and math) subjects. And if you haven't seen the new CT Science Center yet, this is your chance!

Schedule

11:00 Welcome

11:15 Panel discussion – panel of women scientists and engineers discuss their mentors, influences, work climate, challenges and solutions

12:30 Buffet lunch served

1:00-3:00 Workshops:

- ◆ Resources and Learning Strategies for Middle School Girls
- ◆ Family Engineering—a showcase of engineering activities to use with girls and tips on how to create a family engineering day in the community
- ◆ How to Apply for our \$1000 Mini-grants
- ◆ Evaluating Your Program—Qualitative Measures to Gauge Outcomes

3:00-5:00 The CT Science Center will remain open for interested participants to browse or interact with the exhibits.

Please go to the CT Girls Collaborative Project website to register by March 29, 2010: <http://ngcproject.org/events/register.cfm?eventid=165>, or <http://ngcproject.org> and click on events, and then forums. After registering for the forum, you will receive an email inviting you to choose two of the four workshops.

For directions, and to see the exciting programs and events that are taking place at the CT Science Center, please visit www.CTScienceCenter.org

Any questions may be addressed to Ellyn Savard at esavard@gsofct.org, or 203-334-3145 ext 3018.
