About
ASTEC connects organizations and individuals across Arizona committed to informing and motivating girls to pursue careers in science, technology, engineering and mathematics (STEM). ASTEC is made possible by a grant from the National Girls Collaborative Project, a National Science Foundation funded project (HRD 0631789) and contributions and collaboration from our many partners.

September 28, 2012
Join us as we launch the Arizona Science, Technology, and Engineering Collaborative (ASTEC) Project for Girls with our Kick-off Conference at the UA Biosphere 2.

Learn about:
• the National Girls Collaborative Project and the Program Directory
• the benefits of collaboration
• girl-centered STEM programs
• how you and your organization can get involved with ASTEC
• connecting with other non-profits, K-12 administrators, and afterschool educators contributing to the advancement of girls in STEM fields across Arizona
• resources offered by national organizations and industries in AZ
• the UA Biosphere 2

Date: September 28, 2012
Times: 9:00am - 4:00pm
Location: University of Arizona Biosphere 2
Fee: $25, includes lunch
Optional tour, Friday, 4:00pm

Registration scholarships available!
