

*Oregon Girls
Collaborative Project*

COLLABORATION FORUM

Building Better & Stronger Collaborations

ABOUT THE FORUM:

We will look at exemplary practices in creating Better and Stronger Collaborative Relationships, especially looking at creating partnerships with school districts, out-of-school time programs, community based organizations, and local industry. We will invite STEM content providers, district programs, and afterschool or summer programs to share about their experiences building collaborative experiences for girls in STEM.

If you think you are interested in applying for a mini-grant later this fall, come to this forum, find partners and ask questions about what kind of collaborative partnerships we might be looking to fund in the future.
