

Maine Girls Collaborative Project

Forums for STEM Educators

March 14 • University of Maine

9 a.m. — Learning Through Stories of Disability Inclusion: Strategies for Making Your Projects/Programs More Inclusive

A panel on working with girls with disabilities in STEM programming by Janet May, coordinator of transition and adults at the Center for Community Inclusion and Disability Studies at the University of Maine; and Jane Disney, staff scientist at Mount Desert Island Biological Laboratory and Director of Community Environmental Health Laboratory.

1 p.m. — Building Collaborative Capacity in Native American Communities

A presentation on Maine tribes and strategies for effectively working with Native American girls in STEM by Maria Girouard, assistant coordinator of outreach and student development at the UMaine Wabanaki Center, and educator of Native American history and culture.

Lunch provided and CEU's available. This program is free and open to the public. For more information or to request a disability accommodation, contact Sharon Barker, 207.581.1501; sbarker@maine.edu.

Sponsored by the University of Maine Women's Resource Center, UMaine Division of Lifelong Learning, University of Maine Cooperative Extension, EPSCoR and Expanding Your Horizons.
