

***SciGirls* Professional Development Training.**

SciGirls is a PBS Kids television series out to change how teens think about science, technology, engineering and math, or STEM! In each episode, join bright, curious *real* girls in putting STEM to work. Then check out the website to play games, watch episodes, share projects, and connect with other *SciGirls* in a totally safe social networking environment!

SciGirls Training integrates inquiry-based STEM instruction with a commitment to gender equity. Educators attending *SciGirls* Trainings will learn the latest research for exciting and engaging girls (and boys) in STEM; experience hands-on STEM activities; and gain access to free materials for hands-on, video-enhanced activities that put a creative twist on teaching STEM.

Where: DeKalb Public Library
