NY state needs girls in STEAM!!
  ● We need to find ways to encourage more girls to continue in math and science.
  ● We still haven’t made as much progress as we should have. More promotion, the better
  ● Need for role models(young) to come to Elementary/middle school - how do we connect?

What are you hoping to learn about today?
  ● Activities to allow creativity in STEM at upper level for those already interested
  ● Who shares a common goal for girls in STEAM
  ● Examples of ways to incorporate STEAM into our school
  ● Connect with others interested in promoting STE(A)M to young girls and women
  ● New mentor opportunities for our amazing STEM infory
    ○ Emma Willard School
  ● Ideas!
  ● New resources!
  ● make more network connections

Is there a resource that you would like to share for collaboration, STEM activities, etc?
  ● CitizenU, Kelly Mabee (607) 760 - 2812
  ● 4-H does Tons of STEM. Call your local Cornell Cooperative Extension office
  ● PBL-PD-QIII wants to share
  ● Cornell Cooperative Extension, Broome County (607) 584 - 5003
  ● Opportunities and Best STEM practice to execute
  ● PBS Learning Media NY

I am excited to be here today because…
  ● Meet new colleagues
  ● Young STEM Leaders are awesome
  ● To collaborate with other like-minded women
  ● I am so ready for my students to show what they like love STEM
  ● We need to encourage more girls to continue in math and Science
  ● I am able to take away new perspectives on encouraging more females to get involved in out FRC Team
  ● To work with others through NY STEAM to increase interest for girls in STEM. we can do it
  ● the girls always inspire me!
  ● because my elementary-school daughter says MATH is her favorite subject
  ● I’m excited to share SciGirls resources

What inspired you today?
  ● The girls panel by far!
