

Please join us for a **FREE** educator training about leading science and literacy programs!

Tennessee Afterschool Network is pleased to offer a **FREE** training in Leap into Science Balance Workshops. Leap into Science is a nationwide program from The Franklin Institute Science Museum that integrates open-ended science activities with children's books, designed for children ages 3-10 and their families. These activities are designed for community settings, like libraries, museums, and out-of-school time programs.

Who? Teams of two or more educators from the same organization

When? Thursday, November 1, 2018

Where? United Way of Greater Knoxville

Each team of educators will receive:

- Access to high-quality science and literacy curriculum
- A kit of materials valued at \$300
- Access to the Leap into Science online resources
- Ongoing support and participation in the Leap into Science National Network

Space is limited! Sign up early at:
