

Brite Application Webinar

November 8, 2023

NGCP Vision

The vision of the National Girls Collaborative Project is to **support and create STEM experiences** that are as **diverse as the world we live in.**

Our Goals

Connect + Create + Collaborate

1

Build and sustain a network

of advocates to provide equitable and inclusive STEM opportunities.

2

Catalyze equity in STEM

from research to practice by providing actionable knowledge that transforms the STEM experience.

3

Increase our collective impact

by strengthening organizational effectiveness and enhancing our fiscal sustainability.

NGCP Activities

- Network Partnerships
- IF/THEN Collection
- Youth Advisory Board
- State Leadership Teams

National Webinars

- Offered monthly on topics to help our networks grow and thrive
- Speakers include educators, researchers, authors, and diverse STEM professionals
- Sign up: <https://www.ngcproject.org/events-announcements>

"I have gotten more out of this than the dozens of other presentations I have attended this summer."

"I found this useful and enjoyable."

"I really like all the resources placed in the chat that I can go and flip through to find what is most helpful to my organization"

NGCP Newsletter

- National in-person and online events
- STEM resources for engaging girls and youth, professional development opportunities for educators, and opportunities for youth
- Research and reports related to STEM and equity, informal STEM education and learning
- NGCP updates and events, including webinars, knowledge products, and tools

Webinar Goals

- To learn about the core elements of BRITE and the support provided for participating programs
- To learn from the experiences of a current Brite educator
- To gain knowledge of the grant requirements for participation
- To hear and address your questions and concerns

NSF #2215138

BRITE Girls Online STEM Practices: Building Relevance and Identity to Transform Experiences

- National Science Foundation Advancing Informal Science Learning Research in Service to Practice project
- Examine the STEM identity development of girls of color via an online learning community
- Refine/test three approaches on girls' STEM identity formation in an online community: Community building, hands-on activities, learning with women role models
- Research-based, tested *Brite Practices*, a transformative toolkit for fostering girls' identification and long-term participation in STEM

Program Overview

- Online program for self-identifying girls, ages 13-16
- **July 15-August 1, 2024.** Three weeks, Monday - Thursday, 3 hours each day
- Interdisciplinary themes related to computer science, engineering, and physical sciences
- Employ three approaches:
 1. **Community building:** Small group discussions
 2. **Hands-on activities:** Authentic learning with real-world application
 3. **Role models:** Interaction with diverse women STEM professionals

Brite Platform is a launching pad for small group discussions, hands-on activities, and role model talks

SciTech Institute's Chief Science Officers Program

BRITE Program Facilitation:

- 9 CSOs
- Representing: Arizona, California, Michigan, Georgia, India, and Mexico
- Age Range: 14-17
- Online: Live and Recorded Sessions

SciTech Institute Presenters: Sophia and Gloria

STEM-tastic!

Support to Programs

- \$2,000 to support participation
- Educator Guide: The day-to-day facilitation guide, schedule, and resources
- Educator training and program preparation meetings
- Access to customized online platform
- Supplies for hands-on activities in the Educator Guide
- Marketing materials to support recruitment
- Technology support: Apply for tablets to support girls without access

Program Requirements

Recruitment

- Recruit a minimum of 10 self-identifying girls ages 13-16
- Focus on girls from historically excluded groups

Coordination and Facilitation

- Facilitate day-to-day programming for your group of girls
- To ensure a minimum of 1 staff member attends all trainings
- Distribute, track, and provide signed media releases
- Provide educator contact information

Technology

- Ensure participant access to a 1:1 device and technical support for devices
- Help girls create accounts for the online platform

Research Study Requirements

To support girls' participation in the research study:

- Distribute, track, and provide signed permissions for girls' participation in the research study before July 2024: Parent consent and girl assent
- Ensure girls' participation in pre-survey, post-survey at the end of each week, and a follow-up survey 6-12 months after the program
- Ensure girls' participation in observations and focus groups/interviews as requested by the research team

Evaluation Requirements

For educators:

- Participation in a site-specific survey about your program's STEM programming, including structure and demographics
- Participation in post-program survey and focus group with evaluator

Brite Timeline

December 15, 2023	Brite Group Application Closes
January 2024	New Brite Group Notifications
February 9, 2024	Informational Meeting
February-May 2024	Recruitment
March 2024	Contract Distribution
April 2024	Technology Application
April 25, 2024	Meeting for Parents/Caregivers
May 3, 10, & 17, 2024	Educator Training Sessions
June 7, 2024	Platform Training
July 12, 2024	Final Check-in Meeting
July 15-August 1 2024	Brite Program (Survey Participation)
August 2024	Girl Interviews with Research Team
August 2024	Educator Focus Groups with Evaluator
September 2024	Debrief Meeting
January-June 2025	Follow-up Survey with Girls
