SEE YOURSELF HERE

*What is your Passion?*

*What do you want to be when you grow up?*

*What can you do to find out?*

Through Giana's story, children will see that it's perfectly okay not to have all the answers right away. This uplifting tale encourages young readers to stay curious, explore new things, and trust that their passions will reveal themselves in time. Full of heart and hope, this book is a celebration of self-discovery and the joy of figuring it out along the way.

A través de la historia de Giana, los niños verán que está perfectamente bien no tener todas las respuestas de inmediato. Este cuento edificante anima a los jóvenes lectores a mantener la curiosidad, explorar cosas nuevas y confiar en que sus pasiones se revelarán con el tiempo. Lleno de corazón y esperanza, este libro es una celebración del autodescubrimiento y la alegría de descubrirlo en el camino.

"In clear and simple language, Gaby González inspires young girls to think about their futures and what truly inspires them." - DR. PENNY NOYCE, physician and children's author

"This book is an engaging story that fills a gap in resources for young learners that support self-exploration in STEM. I'm looking forward to sharing this story with the thousands of programs served by the National Girls Collaborative network!" - KAREN PETERSON, CEO & Founder, National Girls Collaborative Project

"I did not have a clear career path identified when I finished school. As a lifelong educator I believe it is important to have early exposure to a range of careers and life opportunities. 'Giana's Mission' shows young people that the more you explore and try, the sooner you can identify your passions, often in surprising places." - DAVID DIMMET, CEO of Project Lead The Way

Dr. Gaby A. González is a renowned global expert and thought leader within the Science, Technology, Engineering, and Mathematics (STEM) education ecosystem. With over 30 years of experience, she has dedicated her career to empowering young people by providing access to the transformative benefits of STEM education and careers. Dr. González is the founder and CEO of CihuaTEC Connect®, a business committed to innovating STEM education strategies and cultivating a robust workforce equipped to thrive in a technology-driven economy.
